

## Specialist Equipment (SET) Program

### About the program

The Noah's Ark **Specialist Equipment (SET)** Program provides specialist equipment for loan to child care services, to assist in the inclusion of children with high physical support needs.

The SET Program is staffed by experienced therapists who assist with the selection of equipment and provide professional advice. The fitting and ongoing monitoring of the specialist equipment within the child care service is the responsibility of the child's therapist.

### What equipment can be provided?

The SET program can provide:

- Supportive seating
- Toileting aids
- Standing frames
- Positioning equipment
- Portable ramps

### How to access SET?

In conjunction with the Inclusion Support Facilitator (ISF) and child's therapists, the child care service needs to complete a **Service Support Plan** and **Specialist Equipment Request Form**.

### Who is eligible?

Children with a diagnosed disability or who are undergoing assessment for a diagnosis may access specialist equipment to assist in their inclusion in eligible child care services.

Child Care Benefit approved child care services eligible to access specialist equipment include:

- Long day care
- Outside school hours care
- Vacation care
- Family day care
- Occasional care
